## Summary

Let me get this straight, I am here to rock! give me something to do and I will make it even better. So you have something I do not actually know how to do? no problem in no time I will learn it! life goes on and I do not desire to stay back.

## ABOUT SOFT SKILLS

Till this point, I have completed a few courses in which I learned key soft skills such as:

- Leadership.
- Teamwork.
- Personal finances.
- Assertive communication.
- Time management.
- Hard-working.

# I love working with my team to complete assignments and solve issues;

# I enjoy participating in discussions about software in general;

# If I am assigned to a certain team and that team does not perform how it should, I am most likely to take the lead and lead them to success.

## STRENGTHS

- If you ask me what are my strengths I would tell you that I am a quick learner, it does not matter to me if you tell me I have to learn a completely new programming language (or another "human" language) or another set of skills, I will do it in less time than you expect me to.

- I love working with others.

## TECHNOLOGIES

# HTML

# CSS

# Python

# Django

# MySQL

# GIT/GitHub

# Currently learning JAVA with spring and Testing.

## Experience

### NC QA Tester

No Country

Nov 2021 - Present (1 month +)

## **Website Tester**

UserTesting

Aug 2021 - Nov 2021 (4 months)

## **Education**

### **Brigham Young University - Idaho**

Bachelor of Applied Science - BASc, Computer Programming, Specific Applications

Sep 2021 - Sep 2024
